- **HISTORY**

Electronic Links International, Inc. was founded in 2004 by an executive with over twenty-five years of experience in engineering, marketing, and sales of electrical components. The staff comprises engineers and other employees from major electronic OEMs worldwide, with expertise ranging from materials to electrical behaviors.

We employ analytical and scientific tools to provide the best design and manufacturing solutions for our finished components. These components comply with the latest international standards and developments.

- **SCOPE**

We design, manufacture, export, and sell electrical connectors and cable assemblies in both copper and fiber optics, along with other electrical components. Our goal is to deliver these components promptly, meeting quality requirements at competitive prices.

- **LOCATION**

The world headquarters is located in the USA, while the European headquarters is in Milan, Italy. Manufacturing facilities are spread across the United States, Italy, and Asia.

MACHINE VISION CABLES

Electronic Links International, Inc. www.electronic-links.com a company member of the AIA (Association for Advancing Automation) www.automate.org has available all the necessary cable assembling to support this technology. Contacts sales for drawings, specs, samples, quotations. These cables are:

- **USB 3.0 Cables**
- **GigE Cables**
- **IEEE 1394b Cables**
- **Camera Link Cables**
- **CoaXPress Cables**
- **CCD Cables**

In addition, other solutions in copper, glass, and plastic fiber are available.

USB 3.1 C to C AOC Data Only

1. SCDS-3120 series
2. Can support 10 Gbps super speed
3. Meets USB3.1 standard
4. Downward compatible with USB2.0/1.1
5. Hybrid copper and fiber cable
6. From .2 to 15 meters

Electronic Links International, Inc. assumes no responsibility for inaccuracies or omissions in the information contained in this document. Specifications are subject to change without notice. USB 3.2 Gen 2 Full-Featured AOC Cable

(With DP and ALT mode)

1. SCFC-3420 series
2. Support DP 4 lanes, 8K@30Hz, video transmission
3. support USB 3.1 Gen 2 10Gbps data transmission
4. Support backward compatible with USB 2.0/1.1
5. Support PD 60W(20V 3A) power delivery
6. Support customized lengths from 1m, 2m, 3m, 5m, 7.5m, 8m, 10m and 15m
7. Support 2-lane DP1.4&USB3.2 10Gbps

Armored HDMI 2.0 AOC

1. SAHC series
2. Support 4K@60Hz, 18Gbps
3. Max to 100m long
4. Cable OD: 5.8mm
5. TPU jacket, 304 stainless steel reinforced cable
6. with accessories of water proof head and mobile reel are available for your choice
7. Length (M): From 5 to 100 meters

USB 3.0 A to Micro B Active Optical Cable

1. PVC Jacket / SUMB series
2. HF wire / SSMB series
3. Do not downward compatible with USB 2.0
4. Support 10 Gbps
5. Operates with USB 3.0 super speed host controllers
6. Supports all major operating systems including Windows, Mac OS, and Linux
7. From 5 up to 20 meters

M Series Connector

FEATURES

- **Waterproof M5 / M8 / M12 Male & Female Connector.**
- **Environment protection IP67.**
- **Compliant with the RoHS Directive.**
- **Vibration intensity 10 to 500 Hz and 0.35 mm or 50 m/s² (5g)**
- **Current capacity up to 16 A**
- **Mechanical shock 61076-2-XXX is 490 m/s² (50g)**

APPLICATIONS

- **Heavy machineries**
- **Industrial automation**
- **Sensors**
- **Electric auto bike**
- **IP CCTV camera**
- **Military communications**
- **Industrial Computer (IPC)**

USB 3.0 WATERPROOF SOLUTION FOR THE VISION MARKET

Up to 5 meters in lengths with two cable solutions:

- a. High flex cable were the system is in need to move
- b. Static cable for were the cable is fix

- #1: USB 3.0 waterproof Std.A/female to microB cable

- #2: USB 3.0 Std.A to Waterproof Std.A cable

(USB4.0 COPPER CABLES (PASSIVE & ACTIVE))

- Bandwidth: 40Gbps – 0.8M, 1M, 2M, 3M
- Bandwidth: 20Gbps – 5M
- Wire type: Coax
- Connectors type: USB C
- The passive type up to 1 meter has no IC integrated
- The active type up to 5 meters has the IC integrated
- Support USB4 Gen/2Gen3 full duplex high speed transmission
- Support DP1.4, 4 lane Display Port video signal transmission, DP alternative mode

Thunderbolt™ 5 (80 to 120 Gbps) Passive EPR Cable

General Specification:

- **Length: 0.3 meter/0.5 meter/0.8 meter/ 1.0 meter**
- **Connector: Type C or compatible**
- **Color: Black/white**
- **P/N: TPCLL-EHQ**

Thunderbolt Gen2/Gen3/Gen4/Gen5 full duplex operation

The Thunderbolt 5 passive cable provides a robust solution designed to meet the performance, power delivery, and quality required of certified Thunderbolt. Fully interoperable with Thunderbolt 5 PC and Devices,

Thunderbolt 5 will deliver 80Gbps of bi-directional bandwidth, and bandwidth boost it provides up to 120Gbps for the best display experience.

Note: Thunderbolt and Thunderbolt logo area trademark of Intel Corp. U.S. and/or other countries.

DP 1.4 Type C AOC Manual

The ELII DP 1.4 AOC is our new Audio/Video cable, designed for high-definition signal transmission using optical fiber. This cable not only supports lengths exceeding 100 meters but also ensures a more stable signal quality with no EMI interference. It boasts an impressive 8.1Gbps bandwidth per channel and supports 8K resolution, fully compliant with the DP1.4 standard. This mature and competitive solution is perfect for the high-speed data transmission market. The optical fiber cable is compatible with computers featuring USB Type-C interfaces, outdoor displays, LED signboards on streets and in stadiums, and security systems that require audio and video signal transfer.

TRANSCEIVER QSFP28 Active Optical Cable 100 Gbps

- Four Full-Duplex Lanes
- Data rate up to 25.78125 Gbps/lane
- Hot-Pluggable Interface
- Low latency, low weight, and low power consumption
- Compliant with SFF-8636, SFF-8679, SFF-8662, SFF- 8663, IEEE802.3bm
- EMI performance match FCC class B
- BER better than 10 minus 12
- Storage, Network, Server, NIC switch
- Low cost AOC solution
- Lengths from 3 meters to 30 meters

MPO Optical Patch Cord

Features

- MPO connector complied with IEC-61754-7
- A quick-to-deploy
- Scalable solution
- High compatibility, flexibility and system performance
- Lower installation cost

Applications

- SAN (Storage Area Network) data center LAN
- LAN/SAN switch equipment distribution area (EDA)
- Emerging 40G and 100G protocol

OSFP112 400G SR4 Optical transceiver for(dual MPO)flat top solution

Product Specifications

This product is a 400Gb/s OSFP112 400G SR4 optical module designed for 100m optical communication applications. The module converts 4 channels of 100Gb/s (PAM4) electrical input data to 4 channels of parallel optical signals, each capable of 100Gb/s operation for an aggregate data rate of 400Gb/s.

On the receiver side, the module converts 4 channels of parallel optical signals of 100Gb/s each channel for an aggregate data rate of 400Gb/s into 4 channels of 100Gb/s (PAM4) electrical output data.

An optical fiber cable with an single MPO-12 connector can be plugged into the OSFP112 400G SR4 module receptacle. Host FEC is required to support up to 100m fiber transmission.

Designed For Artificial Intelligence

Features

- Up to 106.25 Gbps data rate per channel by PAM4 modulation
- Support 400GAUI-4 electrical interface
- Integrated 850nm VCSEL array and PD array
- DDM function implemented
- Hot-pluggable
- Single +3.3V power supply

Standards

- Compliant to OSFP MSA 5.0
- Compliant with CMIS 4.0
- 4x106.25Gb/s electrical interface (400GAUI-4)
- Maximum power consumption 9W
- Single +3.3V power supply
- Case temperature range: 0 ~ +70°C
- RoHS 2.0 complaint

Applications

- Data centers and Cloud Networks

OSFP800 800G 2xSR4 Optical transceiver

Product Specifications

Designed For Artificial Intelligence

This product is a 800Gb/s OSFP800 2xSR4 optical module designed for 100m optical communication applications. The module converts 8 channels of 100Gb/s (PAM4) electrical input data to 8 channels of parallel optical signals, each capable of 100Gb/s operation for an aggregate data rate of 800Gb/s.

On the receiver side, the module converts 8 channels of parallel optical signals of 100Gb/s each channel for an aggregate data rate of 800Gb/s into 8 channels of 100Gb/s (PAM4) electrical output data.

An optical fiber cable with dual MPO-12 connector can be plugged into the OSFP 800G SR8 module receptacle. Host FEC is required to support up to 100m fiber transmission.

Features

- Up to 106.25 Gbps data rate per channel by PAM4 modulation
- Support 800GAUI-8 electrical interface
- Integrated 850nm VCSEL array and PD array
- DDM function implemented
- Hot-pluggable
- Single +3.3V power supply

Standards

- Compliant to OSFP MSA 5.0
- Compliant with CMIS 5.1
- 8x106.25Gb/s electrical interface (800GAUI-8)
- Maximum power consumption 14W
- Single +3.3V power supply
- Case temperature range: 0 ~ +70°C
- RoHS 2.0 complaint

Applications

- Data centers and Cloud Networks

12. Optical interface

The dual MPO-12 connectors for OSFP800 2xSR4.

40G CoaXPRESS OVER FIBER CABLE ASSY, 300 M

ELII, a member of the www.automate.org , is introducing an optical cable+trasciever capable to deliver 40G solution for the machine vision market. The cable+transceiver CoaXPRESS is registered by the JIIA (Japan Industrial Imaging Association), www.jiia.org . A PlugFest is scheduled. The solution is based on a 40GBase-SR4 QSFP+850nm transceiver. The length of the cable is 300 meters. **A 400 meters solution is also available upon customer request.**

The cable assembly it meet the IEC 61300-3-35 and the RoHS 2.0 standard. The transceiver is compliant with SFF-8436 and SFF-8679, as well as the IEEE802.3ba.

We are planning on demonstrating the 300 meters solution connected to a compatible grabber board and camera in October 2024 during the Vision show in Stuttgart, Germany and in December 2024 in Yokahama, Japan. As well as at Photonics West in February 2025 in San Francisco, and Automate in May 2025 in Detroit.

QSFP+ = Quad SFP+ = 4 x SFP+
SFP module = Small Form-factor Pluggable module

- Compact network interface module used for data communication, for example Ethernet
- Widely used in data centers

40G MPO Cable Assy, 300 meters

40G MPO Transceiver

Euresys Grabber board

Part Numbers:

Transceiver P/N: ELII-EBS0A0 QSFP+ Multimode, 40G, 300m, 850nm, MPO interface

Transceiver P/N: ELII-EBS0A0 QSFP+ Multimode, 40G, 300m, 850nm, MTP interface (The same)

MPO to MPO Cable P/N:ELII-EBS0A1 MPO/UPC/F to MPO/UPC/F (female with B polarity, 300 meters)

PROFINET CABLE ASSEMBLIES

Applications:

Designed for PROFINET protocol, used in a wide range of industrial Ethernet applications. It directly connects two electronic devices and instruments, and can be used in EtherCAT and Ethernet / IP. suitable for indoor fixed applications or occasional mobile. Features

- ◆ The flame retardant performance of the cable meet IEC60332-1
- ◆ Has excellent anti external electromagnetic interference ability
- ◆ Wear resistance, oil resistance, better performance of PUR sheath
- ◆ Long service life
- ◆ Flexible use and easy replacement of equipment
- ◆ A variety of lengths and sheath options are available

Electronic Links International, Inc. assumes no responsibility for inaccuracies or omissions in the information contained in this document. Specifications are subject to change without notice. FTTH SOLUTIONS

We offer a complete range of components for a complete FTTH installation. Contactsales@electronic-links.com for samples, quotations, and more inf.

SAMPLES OF PRODUCTS OFFERINGS:

- Pre-terminated ports
- Rack mounted PLC splitters
- Insertion ABS box module
- Cassette PLC splitters
- Block less mini fiber PLC splitters
- Fiber optic fast connectors
- Fiber optic path cords
- Armored fiber optic patch cords
- MPO patch cords
- Fiber optic adapters
- Fiber optic splice closures
- Fiber optic distribution boxes
- Fiber optic wall sockets
- 8/16 ports FTTH
- PLC splitters
- SC Adapters
- & more

Outdoor Flat Drop Cable in the pull box: FTTH/FTTX

Description

Fiber Cable Pull box 2000FT

PN Number: ELII-CPB-2000F

Features

- Cable can be 3.0mm, 5.0mm 4.5*8.1mm 4.5*9.8mm
- Can be connector in the both end(SC APC, Hardened SC APC, MINI SC)
- Max Length: 3000FT

Application

FTTH / FTTX – Indoor & outdoor drops

Single and multi-dwelling units

FTTP and campus networks

Rural broadband

DAS / FTTA

MIL-DTL-38999, MIL-C-26482, MIL-C-5015, MIL-C-83513 CONNECTORS AND CABLE ASSEMBLIES

IP68 Micro Circular Connectors MIL-DTL-38999 High Reliability Meet the US military standard: MIL-DTL-38999 III series

- Quick tri-start thread coupling with anti-decoupling mechanism
- Small size, lightweight and high density
- EMI/RFI shielding
- Withstand strong vibration
- Removable crimp contact with scoop-proof design
- Withstanding high strength vibration under high temperature, and applied in harsh environment like wind, sand, moist etc..
